## RESOLUTION

### on Relations and Cooperation with Ukraine

The Baltic Assembly

**regarding** the independent Republic of Ukraine as a very important stabilising factor in Central and Eastern Europe;

**taking** into account Ukraine's progress along the road of democratization and integration into the European political, economic and security structures and its active participation in the solution of international problems;

**understanding** Ukraine's desire to develop its economic, trade and other relations with Central, Western and Northern European countries, including Estonia, Latvia and Lithuania,

**urges** the parliaments and governments of the three Baltic States to foster their relations with Ukraine and promote political, economic and cultural cooperation, including cooperation in European and other international organizations.
