RECOMMENDATION

on the implementation of the *Via Baltica* project

Starting to implement the *Via Baltica* project, which makes it possible to use the advantageous geographical position of the Baltic States between Northern and Central Europe, would be extremely profitable for the economy of the Baltic States.

The Baltic Assembly recommends to the Baltic Council of Ministers:

to hold international negotiations on the implementation of the *Via Baltica* project;

to determine the way of co-ordinating relevant operations, and

to submit to the Baltic Assembly a report on the implementation of the resolutions concerning *Via Baltica* adopted in the past.

Chairman of the
Presidium of the
Baltic Assembly

Deputy chairman of the
Presidium of the
Baltic Assembly
